Delegated Regulation (EU) 65/2014

|                                                           |                            |
|-----------------------------------------------------------|----------------------------|
| Supplier name or trademark                                | <b>Electrolux</b>          |
| Model identifier                                          | <b>EOF3H40BX 944068233</b> |
| Number of cavities                                        | <b>1</b>                   |
| <b>Cavity 1</b>                                           |                            |
| Energy Efficiency Index                                   | <b>95,1</b>                |
| Energy Efficiency Class                                   | <b>A</b>                   |
| Energy consumption per cycle (conventional mode)          | <b>0,89 kWh</b>            |
| Energy consumption per cycle (fan-forced convection mode) | <b>0,78 kWh</b>            |
| Heat source                                               | <b>Electric</b>            |
| Volume                                                    | <b>65 Litres</b>           |
