Simon Game

Hasbro Gaming Simon Game:

Get ready for fast-paced play with lights and sounds that challenge players with every sequence. To beat the Simon game, players need to remember the colour pattern and repeat it by pressing the coloured buttons on the game unit in the correct order. It starts off at a rather steady pace, but the more you play, the more complicated the patterns become, building suspense with each turn. Count 1 point each time the green light flashes, and 10 points when all the lights flash at once. The Simon game unit helps keep track of the highest score as players challenge friends or try to beat their own high score in solo play. Hasbro Gaming and all related terms are trademarks of Hasbro.
