

## TP-Link Archer T4U WLAN 867 Mbit/s

**Zīmols :** TP-Link

**Preces kods:** ARCHER T4U

**Modeļa nosaukums :** Archer T4U

TP-Link Archer T4U. Savienojamības tehnoloģija: Bezvadu, Saimnieka interfeiss: USB, Interfeiss: WLAN. Maksimālais datu pārraides ātrums: 867 Mbit/s, Wi-Fi standarts: Wi-Fi 5 (802.11ac), Wi-Fi josla: Divkāršā frekvenču josla (2.4 GHz / 5 GHz). Produkta krāsa: Melns

| Savienojamība                          |                                                                  | Sistēmas prasības                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
