

## Dahua Technology VDKP01-WG durvju zvana komplekts Melns, Pelēks, Balts

**Zīmols :** Dahua Technology

**Preces kods:** VDKP01-WG

**Modeļa nosaukums :** VDKP01-WG

Dahua Technology VDKP01-WG. Produkta krāsa: Melns, Pelēks, Balts, Vislabāk izmantot: Mājas, International Protection (IP) code: IP65. Saderīgās atmiņas kartes: MicroSD (TransFlash), Maksimālais atmiņas kartes izmērs: 256 GB, Atbalstītie audio formāti: G.711 A-law, G.711 μ-law, PCM. Maksimālais video izšķirtspēju: 2560 x 1440 pikseli, Maksimālais kadru ātrums: 15 fps, Attēla sensora izmērs: 1/3". Savienojamības tehnoloģija: Bezvadu, Wi-Fi standartu: 802.11b, 802.11g, Wi-Fi 4 (802.11n), Wi-Fi 6 (802.11ax), Atbalstītās mobilās operētājsistēmas: Android, iOS. Barošanas avota veids: AC, Līdzstrāvas, USB, Ieejas spriegums: 100 - 240 V, Maiņstrāvas ievades frekvence: 50/60 Hz

| Īpašības                           |                               | Kamera                               |                                                         |
|------------------------------------|-------------------------------|--------------------------------------|---------------------------------------------------------|
| Vislabāk izmantot                  | Mājas                         | Fiksēts fokusa garums                | 2,3 mm                                                  |
| Izgaismota spiedpoga               | ✓                             | Maksimālais atvērums                 | 2,2                                                     |
| International Protection (IP) code | IP65                          | Horizontālais skata lauks            | 120°                                                    |
| Atbalsta kustību konstatēšanu      | ✓                             | Vertikālais skata lauks              | 66°                                                     |
| Cilvēka noteikšana                 | ✓                             | Diagonālais skata lauks              | 143°                                                    |
| Produkta krāsa *                   | Melns, Pelēks, Balts          | Nakts redze                          | ✓                                                       |
| Apvalka materiāls                  | Plastmasa                     | Nakts redzamības attālums            | 10 m                                                    |
| LED tips                           | IR                            | Iebūvēto kameru *                    | ✓                                                       |
| Darbības rādītāji                  |                               | Savienojamība                        |                                                         |
| Integrēts karšu lasītājs           | ✓                             | Wi-Fi                                | ✓                                                       |
| Saderīgās atmiņas kartes           | MicroSD (TransFlash)          | Savienojamības tehnoloģija *         | Bezvadu                                                 |
| Maksimālais atmiņas kartes izmērs  | 256 GB                        | Wi-Fi standartu                      | 802.11b, 802.11g, Wi-Fi 4 (802.11n), Wi-Fi 6 (802.11ax) |
| Iebūvēts mikrofons                 | ✓                             | Atbalstītās mobilās operētājsistēmas | Android, iOS                                            |
| Iebūvēti skaļruņi                  | ✓                             | Energijas pārvaldība                 |                                                         |
| Atbalstītie audio formāti          | G.711 A-law, G.711 μ-law, PCM | Barošanas avota veids *              | AC, Līdzstrāvas, USB                                    |
| Atbalstītie video formāti          | H.264, H.264B, H.265          | Ieejas spriegums                     | 100 - 240 V                                             |
| Atiestates poga                    | ✓                             | Maiņstrāvas ievades frekvence        | 50/60 Hz                                                |
| Programmaparatūra atjauninājama    | ✓                             | DC ievades spriegums                 | 5 V                                                     |
| Kamera                             |                               | Tehniskā informācija                 |                                                         |
| Maksimālais video izšķirtspēju     | 2560 x 1440 pikseli           | Atbilstības sertifikāti              | CE                                                      |
| Maksimālais kadru ātrums           | 15 fps                        | Svars&dimensijas                     |                                                         |
| Attēla sensora izmērs              | 1/3"                          | Platums                              | 45 mm                                                   |
| Sensora tips                       | CMOS                          | Dziļums                              | 135 mm                                                  |

| Svars&dimensijas  |         |
|-------------------|---------|
| Augstums          | 24,2 mm |
| Svars             | 110 g   |
| Iepakojuma saturs |         |
| Manuāls           | ✓       |
