The Ugreen brand extender allows you to transfer data at a speed of up to 480Mb/s. It is made in USB 2.0 technology and has USB (male) and USB (female) plugs. It is backwards compatible with USB 1.0 technology. With it, you can quickly copy data from electronic devices with a USB-A connector. It can also be used to connect peripheral devices that are far away from the computer. The extension cable allows you to easily connect to a hard-to-reach USB port, which is located, for example, on the back of the computer case.
