

## Powerline FRITZ! 1220 1200 Mbit/s Ethernet/LAN savienojums Balts 1 pcs

**Zīmols :** FRITZ!

**Preču ģimene:**  
FRITZ!Powerline

**Preces kods:** 20002736

**Modeļa nosaukums :**  
FRITZ!Powerline 1220

Powerline 1220. Maksimālais datu pārraides ātrums: 1200 Mbit/s, Jaudas spraudnis: Tips F, Ethernet LAN saskarnes tips: Tikls Gigabit Ethernet. Enerģija patēriņš: 3 W, Jaudas patēriņš (standby): 1 W, Maiņstrāvas ievades spriegums: 230 V. Produkta krāsa: Balts, LED indikatori: LAN, Jauda. Atbalstītās Windows operētājsistēmas: Windows 10 Education, Windows 10 Education x64, Windows 10 Enterprise, Windows 10 Enterprise x64,.... Platums: 59 mm, Dziļums: 41 mm, Augstums: 132 mm

| Darbības rādītāji                        |                                 | Dizains                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |            |                  |       |
