

## Kingston Technology Industrial 32 GB SDHC UHS-I Klases 10

**Zīmols :** Kingston Technology

**Preces kods:** SDIT/32GB

**Modeļa nosaukums :** Industrial

Kingston Technology Industrial. Kapacitāte: 32 GB, Fleškartes tips: SDHC, Zibatmiņas klase: Klases 10, Iekšējās atmiņas tips: UHS-I, Lasīšanas ātrums: 100 MB/s, Rakstīšanas ātrums: 80 MB/s, UHS ātruma klase: Class 3 (U3), Video ātruma klase: V30. Aizsardzības īpašības: Iztur temperatūras maiņas, Ūdensdrošs, Noturība pret rentgena stariem, Produkta krāsa: Melns

| Atmiņa                                |                                                                       | Ārējās vides apstākļi                     |               |
|---------------------------------------|-----------------------------------------------------------------------|-------------------------------------------|---------------|
| Kapacitāte *                          | 32 GB                                                                 | Uzglabāšanas temperatūras amplitūda (T-T) | -40 - 85 °C   |
| Fleškartes tips *                     | SDHC                                                                  | <b>Svars&amp;dimensijas</b>               |               |
| Lasīšanas ātrums                      | 100 MB/s                                                              | Platums                                   | 31,8 mm       |
| Rakstīšanas ātrums                    | 80 MB/s                                                               | Dziļums                                   | 23,9 mm       |
| Iekšējās atmiņas tips                 | UHS-I                                                                 | Augstums                                  | 2,03 mm       |
| UHS ātruma klase                      | Class 3 (U3)                                                          | Svars                                     | 2,31 g        |
| Video ātruma klase                    | V30                                                                   | <b>Informācija par iepakojumu</b>         |               |
| Pielietojuma veikspējas klase         | A1                                                                    | Skaitis iepakojumā                        | 1 pcs         |
| Zibatmiņas klase *                    | Klases 10                                                             | Iepakojuma platums                        | 101,6 mm      |
| Atbalstāmās failu sistēmas            | FAT32                                                                 | Iepakojuma dziļums                        | 5,59 mm       |
| <b>Īpašības</b>                       |                                                                       | Iepakojuma augstums                       | 114,3 mm      |
| Produkta krāsa                        | Melns                                                                 | Iepakojuma svars                          | 13,83 g       |
| Aizsardzības īpašības                 | Iztur temperatūras maiņas, Ūdensdrošs, Noturība pret rentgena stariem | <b>Loģistiskie dati</b>                   |               |
| <b>Enerģijas pārvaldība</b>           |                                                                       | Izcelsmes valsts                          | Ķīna, Taivāna |
| Atmiņas spriegums                     | 3.3 V                                                                 | Originālās kastes platums                 | 114,3 mm      |
| <b>Ārējās vides apstākļi</b>          |                                                                       | Kastes garums (Master)                    | 120,7 mm      |
| Darbības temperatūras amplitūda (T-T) | -40 - 85 °C                                                           | Originālās kastes augstums                | 94 mm         |
|                                       |                                                                       | Kastes svars (Master)                     | 396,02 g      |
|                                       |                                                                       | Daudzums Master kastē                     | 25 pcs        |
