Track Vehicle

[schleich Dinosaurs Track Vehicle:](#)

Action-packed fun in the age of DINOSAURS! The Track Vehicle from schleich® DINOSAURS is your passport to adventure"...whether you're leading a scientific research expedition or navigating rugged terrain on a dino rescue mission.

What has Flynn brought back from his research mission? He has just captured a dangerous Dakotaraptor and loaded it into the cage on the track vehicle. It's better that way, because the giant dinosaur looks like trouble! Flynn certainly doesn't want anyone getting caught in those fangs! How did he manage to capture the Dakotaraptor? From the safety of his vehicle, he could elevate the cab to get a great view of his surroundings and spotted the dinosaur from above. Then he positioned the tornado gun on the roof and waited for the right moment to stun the dinosaur. Hit by the tornado gun, the Dakotaraptor was quite tame and could be loaded into the cage. Pretty clever!
