

## i-tec Metal U3HUB448 interfeisa centrmezgls USB 3.2 Gen 1 (3.1 Gen 1) Type-A 5000 Mbit/s Pelēks

**Zīmols :** i-tec

**Preču ģimene:** Metal

**Preces kods:** U3HUB448

**Modeļa nosaukums :**  
U3HUB448

i-tec Metal U3HUB448. Saimnieka interfeiss: USB 3.2 Gen 1 (3.1 Gen 1) Type-A, Centrmezgla interfeisi: USB 3.2 Gen 1 (3.1 Gen 1) Type-A. Datu pārsūtīšanas ātrums: 5000 Mbit/s, Produkta krāsa: Pelēks, Apvalka materiāls: Metāls. Barošanas avota veids: AC, Ieejas spriegums: 100 - 240 V, Maiņstrāvas ievades frekvence: 50 - 60 Hz. Atbalstītās Windows operētājsistēmas: Windows 10 Education, Windows 10 Education x64, Windows 10 Enterprise, Windows 10 Enterprise x64, Mac operētājsistēmas atbalstītas: Mac OS X 10.0 Cheetah, Mac OS X 10.1 Puma, Mac OS X 10.10 Yosemite, Mac OS X 10.2 Jaguar, Mac OS X.... Platums: 112 mm, Dziļums: 37 mm, Augstums: 18 mm

| Savienojamība                                        |                                  | Energijas pārvaldība                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |        |
