Lindy 48339 networking cable Grey 5 m Cat5e F/UTP (FTP):

Cat.5e F/UTP PVC network cable with support for bandwidth up to 100MHz and features a snagless design with gold plated contacts for ethernet standards up to 1GBase-T.

Cat.5e cable, designed for operating frequencies up to 100MHz. With its overall shielding (F/UTP) in the form of a foil, this type of cable has been used reliably for decades in many installations in the prosumer sector as well as in the professional segment, since it can easily be used for Gigabit Ethernet. These cables are manufactured and tested according to the ISO/IEC 11801 specification.

The gold-plated contacts ensure reliable, corrosion-free connections over extensive periods of time. A robust snagless strain relief design prevents damage to the connector latch during installation and removal.
