1 01 Nr ... (unique identification of the toy(s))
02 № ... (уникален идентификационен номер на детската(ите) играчка(и))
03 No ... (identification unica del juguete o los juguetes)
04 C ... (jednáznčná identifikácia hračky/hračiek)
05 Nr ... (entydig identifikation af legetøjet)
06 Nr ... (einmalige Kennnummer des Spielzeugs)
2 01 Name and address of the manufacturer or his authorised representative:
02 Име и адрес на производителя или на неговия упълномощен представител:
03 Nombre y dirección del fabricante o de su representante autorizado:
04 Jméno a adresa výrobce nebo jeho zplnomocněného zástupce:
05 Navn og adresse på fabrikanten eller dennes bemyndigede repræsentant.
06 Name und Anschrift des Herstellers oder seines Bevollmächtigten:

3 01 This declaration of conformity is issued under the sole responsibility of the manufacturer:
02 Настоящата декларация за съответствие е издадена на пълната отговорност на производителя:
03 La presente declaración de conformidad se expide bajo la exclusiva responsabilidad del fabricante:
04 Toto prohlášení o shodě se vydává na výhradní odpovědnost výrobce:
05 Denne overensstemmelseerklæring udstedes på fabrikantens ansvar.
06 Die alleinige Verantwortung für die Ausstellung dieser Konformitätserklärung trägt der Hersteller:

4 01 Object of the declaration (identification of toy allowing traceability). It shall include a colour image of sufficient clarity to enable the identification of the toy.
02 Предмет на декларацията (идентификационен номер на детската играчка, позволяващ проследяването ѝ). Включва цветно изображение, което е достатъчно ясно, за да позволи разпознаване на играчката.
03 Object de la déclaration (identification du jouet) permetta sa tracciabilità. Includi una imagen en color de nitidez suficiente para permitir la identificación del juguete.
04 Předmět prohlášení (identifikace hračky umožňující zpeřné ji vysledovat). Zahnuje dostatečně zřetelné barevné vyobrazení, na jehož základě lze danou hračku identifikovat.
05 Erklæringsgenstand (identifikation af legetøjet, så det kan spores). Den skal indeholde et farvebillede, der er tilstrækkeligt klart til, at legetøjet kan identificeres.
06 Gegenstand der Erklärung (Bezeichnung des Spielzeugs zwecks Rückverfolgbarkeit). Sie enthält eine hinreichend deutliche Farabbildung, auf der das Spielzeug erkennbar ist.

5 01 The object of the declaration described in point 4 is in conformity with the relevant Community harmonisation legislation:
02 Предметът на декларацията, описан по-горе, отговаря на съответното законодателство на Общността за хармонизация:
03 El objeto de la declaración descrita anteriormente es conforme a la legislación comunitaria de armonización pertinente:
04 Předmět prohlášení popsany v bodě 4 je ve shodě s příslušnými harmonizačními právními předpisy Společenství:
05 Genstanden for erklæringer, som beskrevet i punkt 4, er i overensstemmelse med den relevante EF-harmoniseringslovgivning:
06 Der unter Nummer 4 beschriebene Gegenstand der Erklärung erfüllt die einschlägigen Harmonisierungsrechtsvorschriften der Gemeinschaft:

6 01 References to the relevant harmonised standards used, or references to the specifications in relation to which conformity is declared:
02 Позоваване на използваните хармонизирани стандарти или позоваване на спецификации, по отношение на които се декларира съответствие:
03 Referencias a las normas armonizadas aplicables o referencias a las especificaciones respecto a las cuales se declara la conformidad:
04 Odkazy na příslušné harmonizované normy, které byly použity, nebo na specifikace, na jejichž základě se shoda prohlašuje:
05 Referencer til de relevante anvendte harmoniserede standarder eller referencer til de specifikationer, som der erklæres overensstemmelse med:
06 Angabe der einschlägigen harmonisierten Normen, die zugrunde gelegt wurden, oder Angabe der Spezifikationen, für die die Konformität erklärt wird:

7 01 Where applicable: the notified body ... (name, number) ... performed ... (description of intervention) ... and issued the certificate
02 Когато е приложимо, нотифицираният орган ... (наименование, номер) ... извърши ... (описание на действието) ... и издаде сертификата:
03 Si procede, el organismo notificado ... (nombre, número) ... ha efectuado ... (descripción de la intervención) ... y expide el certificado:
04 Připadně, oznáměný subjekt ... (název, číslo) ... provedl ... (popis zásahu) ... a vydal certifikát:
05 Hvor det er relevant, det bemyndigede organ ... (navn, nummer) ..., der har foretaget ... (beskrivelse af aktiviteten) ... og udstedt atesten.
06 Gegebenenfalls: Die notifizierte Stelle (Name, Kennnummer) ... hat... (Beschreibung ihrer Maßnahme) ... und folgende Bescheinigung ausgestellt:

8 01 Additional information: Signed for and on behalf of (place and date of issue) (name, function) (signature)
02 Допълнителна информация: Подписано за и от името на: ... (място и дата на издаване) (име, длъжност) (подпис)
03 Información adicional: Firmado por y en nombre de: (lugar y fecha de expedición) (nombre, cargo) (firma)
04 Další informace: Podepsáno za a jménem (místo a datum vydání) (jméno, funkce) (podpis)
05 Yderligere oplysninger: Under-skrevet for og på vegne af: (sted og dato) (navn, stilling) (underskrift)
06 Zusätzliche Angaben: Unterzeich-net für und im Namen von: (Ort und Datum der Ausstellung) (Name, Funktion) (Unterschrift)

Part I: Physical Safety Assessment

SECTION 1 – Description

Item/Concept Name:	98003
Detailed Description:	Swim Tube
Materials Used:	PVC
Age Grading:	3-6 years

Executive Summary

SECTION 2 – Foreseeable Use

Intended/Foreseeable Use	Children will play it as intended. Children may sit on the item and play in beach / river / pool.
--------------------------	--

SECTION 3 – Mechanical/Physical Compliance Findings

EN71-1	Europe The product is likely to comply with the requirements for children over 3 years based on the play feature, construction and design. Non-conformity was not identified during this review, but the following requirements should be noted for the compliance. - Mold flash shall not be present - No sharp point/edge can be found - Materials used in the toy shall be clean
--------	---

SECTION 4 – Product Design Evaluation

Risk Assessment Recommendations:

Major Concerns	Drowning This product could present drowning hazard as it is designed to be used in water. If the material of plastic sheet is easy to be punctured, or the stopper detached unexpected, then the risk is further increased. Besides, if the children use this product as a sofa, the children may fall into the water if the product cannot provide sufficient buoyant and stability in water. <i>Action: this hazard can be reduced by:</i> - Increase the thickness to not less than 0.3mm or use a complex construction of PVC sheeting; - Making sure the strength of the heat sealing and the stopper of valve can with 90N tension test; - Using adequate non-return valve; - Adding safety use instruction, regular maintenance & checking, and adult supervision all the time. - The color of the product is better to be changed from black to bright and easy identified color in water, such as from yellow to red colors. - The stopper can't be protruding from the surface of the product more than 5mm
----------------	--

Minor Concerns

Airway obstruction

There could be an airway obstruction hazard cause the plastic film not well finished and become detached as small part in tension test.

The stopper on the product may present the airway obstruction hazard to young child. However, this hazard is minor due to the stopper was not detached after test.

Action: this hazard can be reduced by:

- *the hazard can be reduced by fasten the stopper.*
- *Make the rims were well processed and the protrusion was short so that it can't easily be grasped*

Suffocation

There could be present suffocation hazard if the poly bag and plastic film covers the face of a child or be inhaled. This hazard is reduced as the thickness of the plastic film is more than 0.038mm.

Action: This hazard can be minimized by increasing the thickness of the plastic film up to be more than 0.038 mm and adding some warning on the packaging to alert this risk, such as: "Warning! The poly bag is not a toy, discard it before giving to children. The plastic film may present suffocation hazard, please discard it if the product was broken."

Laceration

There could be a minor laceration hazard if burrs/flash were not well finished. This hazard is reduced due to soft material.

Moreover, make sure all the selvages of the cutting is less than 8mm and smooth and soft.

	<i>Actions: The risk of this hazard can be reduced by making the edges and points are well rounded and smooth and free from burrs, sharp points and edges.</i>
Critical Manufacturing Concerns	Heavy elements content and raw materials should be controlled, especially lead in paint and phthalates, which are involved large number of US CPSC and REPAX recall cases. Material controlling should be well done in manufacturing procedure. The item should be manufactured in a clean environment and this should be closely monitored throughout production to avoid external contamination. Mould flash and process burrs should be controlled throughout production in order to reduce laceration hazards from sharp points or edges

SECTION 5– Flammability

EN71-2	This product is likely to comply with the requirements of EN71 Part 2.
--------	--

SECTION 6– Hygiene

2009/48/EC	According to New Toy Directive, toys must be designed and manufactured in such a way as to meet hygiene and cleanliness requirements in order to avoid any risk of infection, sickness or contamination.
------------	--

SECTION 7 – Radioactivity

Radioactivity	This product has no characteristic related to this hazard.
---------------	--

SECTION 8– Applicable European Directives, Regulations and Harmonized Standards

Applicable Standards	EU Toy Safety Directive (2009/48/EC) - EN 71-1 Safety of toys - Mechanical and physical properties - EN 71-2 Safety of toys - Flammability - EN 71-3 Safety of toys - Migration of certain elements REACH Annex XVII – Restrictions - Cadmium - Organotins - Phthalates - PAHs Regulation (EC) 1907/2006, REACH, Article 33 - Substances of very high concern (SVHCs) on the current candidate list Regulation (EU) No 519/2012 - Short Chain Chlorinated Paraffin (SCCP) Content Packaging Waste Directive (Pb + Cd + Hg + Cr VI) (94/62/EC)
Other Test Recommendations	EN 71-9 Safety of Toys - Organic Chemical Compounds EN71-12 Germany AfPS GS 2014:01 – PAHs Denmark Statutory Order No. 1082-Lead

Gulf Countries

- GSO EN 71-1 Safety of toys - Mechanical and physical properties
- GSO EN 71-2 Safety of toys - Flammability
- GSO EN 71-3 Safety of toys - Migration of certain elements

SECTION 9 – Labelling Assessment

CE Mark

Yes

Note: For the new Toy Directive the CE mark must be visible at the point of sale.

Labeling

All texts required shall be written in the official language of the country in which the toy is to be sold.

New Toy Safety Directive (2009/48/EC)

The following information should be present on the product itself, it can be present on the packaging/instruction if the toy it-self is technically/economically not possible.

- Batch/Serial/Model Number
- Manufacturer name and address
- Importer name and address

The CE marking must be affixed visibly, legibly and indelibly to the toy, to an affixed label or to the packaging. It must be visible at the point of sale.

The toy or its packaging need to be marked with “Warning! Not suitable for children under 36 months. Small Parts, Choking Hazard” visible at the point of sale. If the age warning pictograph is used, this must be preceded by the signal word “Warning”. An example would be

Warning (The diameter of the pictograph shall not less than 10mm.)

Aquatic toys and their packaging shall carry the following warning: **“Warning. Only to be used in water in which the child is within its depth and under adult supervision.”**

The warning on the toy shall be visible, indelible and in a colour which contrasts with the body of the toy. The height of letters shall be 3 mm or more and the marking on inflatable aquatic toys shall be 100 mm or less from one of the air inflation inlets.

Moreover, there shall be no advertising copy or graphics, which state or imply the child can be safe with such a toy if left unsupervised.

An instruction is recommended :-

- Inspect the product and check for any deterioration and loose of stopper before each use. Discard the product once any deterioration in the product is observed.

Warnings, precautions and instructions for use should be written in the national languages of the country in which the toy is to be sold.

SECTION 10 – Recalled Cases Study

Slovakia	Category: Toys Product: Inflatable turtle Brand: INTEX Name: Type/number of model: Batch code: Art. #56524, EAN: 7825756524 Batch number/Barcode: OECD Portal Category: Description: Toy in a shape of turtle, green PVC with painting, two black handles on a front part of a turtle shell, packed in a cardboard box with coloured printing. Labelling on the pack: logo INTEX®, notices “The wet set” and others, a label from importer containing names of the product, of the importer, etc. Labelling on the product itself: Made in China. Country of origin: China 	Chemical The product poses a chemical risk because: - the valve contains 14,0 % by weight of di-isononyl-phthalate (DINP), - the black handles contain 7,34 percentage by weight of di-isononyl-phthalate (DINP), - the green plastic foil with printing contains 24,2 percentage by weight of di-isononyl-phthalate (DINP). According to Directive 2005/84/EC phthalates shall not be used in toys and products designed for a child in concentration higher than of 0,1 % by weight. During a play, a direct contact of child skin with the toy is assumed. The product poses a serious risk for health of a child. This product does not comply with the Chemicals Restrictions Directive 76/769/EEC and the relevant European standard EN 71-1.	Voluntary measures: Withdrawal from the market and recall from consumers ordered by the authorities. Voluntary withdrawal from the market and recall from consumers.
----------	--	--	---

Part II: Chemical Safety Assessment

Summary and Recommendation

None of the materials listed in the submitted BOM is identified from the substances that are classified as CMR of categories 1A, 1B or 2 under Regulation (EC) No. 1272/2008, substances which are Persistent, Bioaccumulative and Toxic (PBT) and very Persistent and very Bioaccumulative (vPvB), restricted substances listed on Annex XVII of REACH and SVHCs on Candidate List. It is also recommended to review the manufacture process to ensure these substances are not added.

The test listed in the table “**Applicable European Directives, Regulations and Harmonized Standards**” are recommended for compliance testing, in order to reduce unintentional chemical risk such as contamination of material during production process.

Chemical management from incoming material to finish product throughout the supply chain is an important part for fulfilling complex and ever-changing chemical requirements. The “**Universal Chemical Safety Assessment**” provided additional information to assist manufacturer in reviewing the manufacturing process, it is to ensure the chemical properties of a toy manufactured through such process is consistence to the BOM stated.

Universal Chemical Safety Assessment

The following assessment was based on worst case scenario by assessing the possibility of existing of hazardous chemical in the material given in the BOM submitted.

Product classification:

A. New Toy Safety Directive (2009/48/EC)

i: The PVC parts of the Happy Crustacean Junior Raft (SAMPLE) are likely to be defined as **scraped-off toy materials**. These materials are **accessible** to children when the SAMPLE is used as intended or in a foreseeable way, when taking into accounts the behavior of children.

Component No.	Material	Accessible as defined by EN 71-1?
1-2	Poly(vinyl chloride) (PVC)	Yes

The CMR substances in categories 1A, 1B and 2 and the 19 elements should fulfill the chemical requirements of Part III, Annex II of 2009/48/EC unless they are **inaccessible**.

ii: The SAMPLE is likely to be defined as a **non-scented** toy. The likelihood of the occurrence of 66 allergenic fragrances will not be assessed.

iii: Although some parts of the SAMPLE are intended to be placed in the mouth, the SAMPLE will not be assessed for nitrosamines and nitrosatable substances due to the following reasons:

- (1) the SAMPLE is **not designed for children under 36 months**;
- (2) the SAMPLE **does not contain rubber or finger paints**¹.

B. REACH (Regulation (EC) No 1907/2006)

i: The SAMPLE is likely to be defined as an **article with substances not intended to be released and substance** under normal and foreseeable conditions of use.

Remark:

¹Referring to the explanatory guidance document (**rev 1.9**) published by the European Commission of **Feb 10, 2016**, nitrosamines and nitrosatable substances are relevant in particular for rubber and finger paints.
(http://ec.europa.eu/growth/sectors/toys/safety/guidance/index_en.htm)

Chemical requirements under new Toy Safety Directive and REACH:

New Toy Safety Directive (2009/48/EC)	CMR substances	: Any substance that is classified as CMR categories 1A, 1B or 2 is prohibited to be used in the SAMPLE unless the substance is below the concentration limit set in Regulation (EC) No 1272/2008 ² . The occurrence of CMR substances in the ABC is assessed in this report.
	19 Elements³	: The manufacturer of the SAMPLE has to confirm that the migration levels of the restricted elements are under the defined maximum permitted levels in pliable and scraped-off toy materials. Safety assessment on the migration of the 19 elements is not suggested ⁴ .
	55 Fragrances⁵	: 55 fragrances are banned (subject to concentration up to 100 mg/kg when their presence is technically unavoidable under good manufacturing practice). The SAMPLE is non-scented toy. The likelihood of the occurrence of the fragrances is very low. Therefore, safety assessment of 55 fragrances is not performed.
	11 Fragrances⁵	: 11 fragrances are permitted but must be labeled if the concentration of each exceeds 100 mg/kg. Safety assessment of 11 fragrances is also not performed on the SAMPLE as they are non-scented.
	Nitrosamines and nitrosatable substances	: Nitrosamines and nitrosatable substances are banned in toys for children under 36 months or for toys that are intended to be placed in the mouth. As the SAMPLE is not designed for children under 36 months and it does not contain rubber or finger paints, thus these substances will not be assessed in this report.
REACH (Regulation (EC) No 1907/2006)	SVHCs	: EU importer may obtain from the manufacturer of the SAMPLE regarding SVHC information to pass along the supply chain if the SAMPLE contains over 0.1% w/w of a SVHC on Candidate List ⁶ . The likelihood on the presence of SVHCs in the ABC is assessed in this report.
	Restricted substances	: Restricted substances for which Annex XVII of REACH contains a restriction relevant to toy materials and children's products should not be used in the SAMPLE unless the restricted condition is complied. The likelihood on the presence of restricted substances in the SAMPLE is listed in this report.

Remarks:

²Maximum concentration of the substance regulated under the new Toy Safety Directive (2009/48/EC), CMR categories 1A, 1B and 2, that can be present in toys, components of toys or micro-structurally distinct parts of toys. Referring to Appendix B(2) of Directive 2009/48/EC, the relevant concentration for the classification of mixtures containing the substances should be those established in accordance with Regulation (EC) No 1272/2008 (with amendment referring to Commission Regulation (EU) No 286/2011) from Jun. 1, 2015.

In case the limit for a substance is set in EN 71-9 and this limit is lower than the specific concentration and the generic limit for a CMR substance in accordance with Regulation (EC) No 1272/2008 (with amendment referring to Commission Regulation (EU) No 286/2011), the limit in EN 71-9 will be used.

³The list of 19 elements is available in Annex II Part III (13) of Directive 2009/48/EC.

⁴According to EN 71-3, there is no relationship between the total element content of a toy material and the soluble migration of that element under standard test conditions. Therefore, measuring the total element content and converting the result to give a soluble element figure is not an answer to this problem.

As presented by Maureen Logghe from the European Commission on the topic of European Commission Toys Standards, the timeframe for the European Committee for Standardization (CEN) to revise EN 71-3 to meet the requirements of Directive 2009/48/EC is four years from his presentation, ie. before 2013.

(http://corporate.nca.ie/eng/Business_Zone/Product_Safety_and_Recalls/Toy_Safety/toy-safety-seminar/NCA-toy-seminar-Maureen-Logghe-Standards-061010.pdf)

⁵The list of fragrances is available in Annex II Part III (11) of Directive 2009/48/EC.

⁶SVHCs on Candidate List is updated by the European Chemicals Agency (ECHA) on a periodic basis.

(http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp)

Conclusion:

Although the data indicates a number of injuries and a number of fatalities involving inflatable pool and toy, given the exposure of these items to the population it is thought that there may be a relatively low probability of injury resulting from their use and that injuries may be unlikely to be severe.

BOM (Bill of Materials)

Product Name : Swim Ring Date : 2025-03-31 Item No : 98003					
Description or level number	Part Number	Number Used (g)	Material, Substance, Component	CAS or Einecs	MSDS Required Y/N
AIR VALVE	1	2	PVC 60.4%	9002-86-2	Y
			DOTP 36.2%	6422-86-2	Y
			ESO 1.8%	8013/7/8	Y
