

PHILIPS

## Philips Hue wall light module

### Accessory

Hue app and voice control

Control up to 100 panels

Add Nanoleaf to light scenes

Simple set up in the Hue app

8721103170132

## Easy smart lighting

Bring your Nanoleaf triangle, mini triangle and hexagon wall panels into the Hue ecosystem. The Philips Hue wall light module lets you control and customise your Nanoleaf panels alongside your Hue lights – bringing the Hue experience to your wall panels for an expressive whole-room experience, perfect for every mood. Include your Nanoleaf panels in light scenes, automations and schedules for a unified smart lighting set-up. Simply click the wall light module into one of your panels to get started. If you're already a Hue user with Nanoleaf panels at home, this is the easiest way to bring them into your Hue ecosystem.

### Full control from a smart device with the Hue bridge

- Control it your way

# Highlights

## Control it your way

Connect your Philips Hue lights with the bridge and start discovering the endless possibilities. Control your lights from your smartphone or tablet via the Philips Hue app, or add switches to your system to activate your lights. Set timers, notifications, alarms and more for the full Philips Hue experience. Philips Hue even works with Amazon Alexa, Apple Homekit and Google Home to allow you to control your lights with your voice.
