

## Beko VRT84225VI Stienveida putekļsūcējs Baterija Sauss HEPA Bezmaisa 0,7 L 350 W Pelēks

**Zīmols :** Beko

**Preces kods:** 8912603200

**Modeļa nosaukums :** VRT84225VI

Beko VRT84225VI. Produkta veids: Stienveida putekļsūcējs, Putekļu savākšanas nodalījuma veids: Bezmaisa, Produkta krāsa: Pelēks. Tīrīšanas tips: Sauss, Putekļu sūcēja gaisa filtrs: HEPA, Netīrumu atdalīšanas metode: Filtrēšana. LED indikatori: Uzlāde, Jauda. Jaudas avots: Baterija, Maksimālā ieejas jauda: 350 W, Motora jauda: 350 W. Iepakojuma platums: 150 mm, Iepakojuma dziļums: 400 mm, Iepakojuma augstums: 810 mm

| Dizains                               |                         | Energijas pārvaldība                                |            |
|---------------------------------------|-------------------------|-----------------------------------------------------|------------|
| Produkta veids *                      | Stienveida putekļsūcējs | Mainstrāvas ievades frekvence                       | 50 - 60 Hz |
| Putekļu savākšanas nodalījuma veids * | Bezmaisa                | Baterijas spriegums                                 | 25,2 V     |
| Putekļu ietilpīgums *                 | 0,7 L                   | Izpildlaiks                                         | 45 min     |
| Produkta krāsa *                      | Pelēks                  | Darbības laiks ar motorizētu uzgali (vidējs ātrums) | 20 min     |
| Birstes forma                         | Taisnleņķa              | Darbības laiks ar motorizētu uzgali (liels ātrums)  | 10 min     |
| Pie sienas piestiprināms              | ✓                       | Uzlādes laiks                                       | 6 h        |
| Darbības rādītāji                     |                         | Sūkšanas jauda                                      | 100 AW     |
| Tīrīšanas tips *                      | Sauss                   | Baterija zema indikators                            | ✓          |
| Putekļu sūcēja gaisa filtrs *         | HEPA                    | Informācija par iepakojumu                          |            |
| Netīrumu atdalīšanas metode *         | Filtrēšana              | Iepakojuma platums                                  | 150 mm     |
| HEPA kategorija                       | HEPA 10                 | Iepakojuma dziļums                                  | 400 mm     |
| Filtrs motora aizsardzībai            | ✓                       | Iepakojuma augstums                                 | 810 mm     |
| Motora tips                           | Nematēts                | Iepakojuma svars                                    | 5,7 kg     |
| Tīrīšanas virsmas                     | Vinila                  | Baterija                                            |            |
| Ātrumu skaits                         | 3                       | Uzlādējama baterija                                 | ✓          |
| Trokšņu līmenis                       | 81 dB                   | Baterijas līmeņa indikators                         | ✓          |
| Iebūvēta displeja                     | ✓                       | Svars&dimensijas                                    |            |
| Ekrāna veids                          | LED                     | Platums                                             | 220 mm     |
| Ergonomika                            |                         | Dziļums                                             | 260 mm     |
| Noņemams filtrs                       | ✓                       | Augstums                                            | 1100 mm    |
| Mazgājams filtrs                      | ✓                       | Svars                                               | 2,4 kg     |
| Viegli iztukšojams konteiners         | ✓                       |                                                     |            |

| Ergonomika                     |               | Iepakojuma saturs               |                                              |
|--------------------------------|---------------|---------------------------------|----------------------------------------------|
| LED indikatori                 | Uzlāde, Jauda | Iekļautas putekļusūcēja birstes | Dzīvnieku spalvu turbo suka,<br>Paklāja suka |
| Vadība ar rokturi              | ✓             | Spraugu uzgalis                 | ✓                                            |
| Enerģijas pārvaldība           |               | Manuāls                         | ✓                                            |
| Jaudas avots *                 | Baterija      | Putekļu savākšanas rīks         | ✓                                            |
| Maksimālā ieejas jauda *       | 350 W         | Logistiskie dati                |                                              |
| Motora jauda                   | 350 W         | Izcelsmes valsts                | Kīna                                         |
| Mainīstrāvas ievades spriegums | 100 - 240 V   |                                 |                                              |
