EP3341/50

- 6 Beverages
- LatteGo
- Glossy Black

The easiest way to enjoy fresh bean coffees

LatteGo, the fastest to clean milk system ever*

- Enjoy 6 hot & refreshing drinks in one touch
- 40% quieter with SilentBrew, same delicious coffee
- Up to 5000 cups** without descaling thanks to Aquaclean
- Enriched flavor with our hard-wearing ceramic grinder
- Silky-smooth froth with LatteGo for various types of milk
- Easy coffee selection and customization
- Find inspiration and support on our app
- LatteGo, the fastest to clean milk system: 2 parts, no tube

*Based on consumer testing in Germany comparing global leading One Touch (Coffee + Milk) Full Automatic Espresso Machines (2023).

***Based on 8 filter replacements as indicated by the machine. Actual number of cups depends on selected coffee varieties, rinsing and cleaning patterns.

Highlights

6 hot & refreshing drinks

Enjoy 5 popular coffee recipes, from classic espresso, regular black coffee, cappuccino, latte macchiato, to iced coffee, with the perfect crema, aroma and temperature. Hot water for tea is also available. Our unique brewing system perfectly extracts the beans flavors with a slower flow rate and at lower temperature. Add ice cubes to your drink and enjoy a delicious iced coffee, with no compromise on coffee intensity.

100% ceramic grinders

Bring out the full flavor of your coffee with our hard-wearing ceramic grinder. The durable ceramic grinder can be adjusted in 12 steps, from fine to coarse grindings.

Effortless, inspired coffee with the HomeID App

Learn the ins and outs of your machine and discover new cafe-style coffee recipes on our HomeID app.

Quiet coffee making with SilentBrew

Our patented SilentBrew technology reduces machine sounds so you can enjoy the experience of brewing aromatic coffee more. Using sound shielding and quiet grinding, our machines make 40% less noise than earlier models and come with a Quiet Mark certification.

LatteGo milk system

At the touch of a button, LatteGo automatically prepares silky smooth milk froth for your milky coffees, thanks to its powerful cyclonic frothing technology, even with your favorite plant-based milk alternatives.

Fastest to clean milk system ever*

LatteGo is the fastest to clean milk system with only 2 parts, no tubes and can be cleaned in 10 seconds under tap or in the dishwasher. Philips is not offering automatic cleaning as it requires complementary cleaning.

AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups**, while enjoying clear and purified water.

Easy coffee selection and customization

Easily select your favorite drinks thanks to the modern touch screen display with colored icons. Adjust your coffee your way with the My Coffee Choice function: choose your preferred coffee strength, length, and milk froth level, just to your taste.

Specifications

Safety feature

Automatic shut-off timer: Yes
Safety certification: Yes

Technical Specifications

Energy Efficiency rating: Class A
Power: 1500 W
Voltage: 230 V
Frequency: 50 Hz
Number in pack: 1

Weight and Dimensions

Product Length: 371mm
Product Width: 246 mm
Product Height: 433mm
Product Weight: 8 kg
Package Length: 491,5mm
Package Width: 287,5mm
Package Height: 487mm
Package Weight: 10-12,3kg

Country of Origin

Produced In: Romania

Durability

User Manual: > 75% recycled paper
Packaging: > 95% recycled materials
