

Goodram M1AA 256 GB MicroSDXC UHS-I Klases 10

Zīmols : Goodram

Preces kods: M1AA-2560R12

Modeļa nosaukums : M1AA

Goodram M1AA. Kapacitāte: 256 GB, Fleškartes tips: MicroSDXC, Zibatmiņas klase: Klases 10, Iekšējās atmiņas tips: UHS-I, Lasīšanas ātrums: 100 MB/s, Rakstīšanas ātrums: 10 MB/s, UHS ātruma klase: Class 1 (U1). Aizsardzības īpašības: Noturīgs pret magnētiem, Triecienizturīgs, Īdensizturīgs, Noturība pret rentgena stariem, Produkta krāsa: Melns

| Atmiņa                                    |                                                                                          | Ārējās vides apstākļi                   |          |
|-------------------------------------------|------------------------------------------------------------------------------------------|-----------------------------------------|----------|
| Kapacitāte *                              | 256 GB                                                                                   | Darbības relatīvā mitruma amplitūda     | 30 - 85% |
| Fleškartes tips *                         | MicroSDXC                                                                                | Uzglabāšanas relatīvā mitruma amplitūda | 30 - 85% |
| Lasīšanas ātrums                          | 100 MB/s                                                                                 | Svars&dimensijas                        |          |
| Rakstīšanas ātrums                        | 10 MB/s                                                                                  | Platums                                 | 11 mm    |
| Iekšējās atmiņas tips                     | UHS-I                                                                                    | Dziļums                                 | 1 mm     |
| UHS ātruma klase                          | Class 1 (U1)                                                                             | Augstums                                | 15 mm    |
| Zibatmiņas klase *                        | Klases 10                                                                                | Informācija par iepakojumu              |          |
| Atbalstāmās failu sistēmas                | FAT32, exFAT                                                                             | Skaitis iepakojumā                      | 1 pcs    |
| Īpašības                                  |                                                                                          | Iepakojuma platums                      | 103 mm   |
| Produkta krāsa                            | Melns                                                                                    | Iepakojuma augstums                     | 123 mm   |
| Aizsardzības īpašības                     | Noturīgs pret magnētiem, Triecienizturīgs, Īdensizturīgs, Noturība pret rentgena stariem | Iepakojuma svars                        | 9,5 g    |
| Rakstīšanas aizsardzības slēdzis          | ✓                                                                                        | Iepakojuma tips                         | Blisters |
| Ārējās vides apstākļi                     |                                                                                          | Iepakojuma saturs                       |          |
| Darbības temperatūras amplitūda (T-T)     | 0 - 70 °C                                                                                | Atmiņas adapteris pievienots            | SD       |
| Uzglabāšanas temperatūras amplitūda (T-T) | 30 - 85 °C                                                                               | Logistikie dati                         |          |
|                                           |                                                                                          | Daudzums Master kastē                   | 25 pcs   |
|                                           |                                                                                          | Papildus informācija                    |          |
|                                           |                                                                                          | Atbilstības sertifikāti                 | CE       |
