

## Acer X1229HP Standarta fokusa projektorš 4800 ANSI lūmeni DLP XGA (1024x768) Melns

**Zīmols :** Acer

**Preces kods:** MR.JUJ11.001

**Modeļa nosaukums :** X1229HP

Acer X1229HP. Projektorā spilgtums: 4800 ANSI lūmeni, Projicēšanas tehnoloģija: DLP, Projektorā izšķirtspēja: XGA (1024x768). Gaismas avota tips: Lampa, Lampas jauda: 210 W. Analogo signālu komutācijas sistēma: NTSC, PAL, SECAM, Atbalstītās grafikas izšķirtspējas: 1024 x 768 (XGA), 1920 x 1200 (WUXGA). RMS nominālā jauda: 3 W. Produkta veids: Standarta fokusa projektorš, Tīrģus pozicionēšana: Prezentācija, Produkta krāsa: Melns

| Projektorš                            |                                       | Savienojamība                     |                             |
|---------------------------------------|---------------------------------------|-----------------------------------|-----------------------------|
| Projektorā spilgtums *                | 4800 ANSI lūmeni                      | VGA (D-Sub) pieslēgvietu skaits * | 2                           |
| Projicēšanas tehnoloģija *            | DLP                                   | Kompozītvideo ievade *            | 1                           |
| Projektorā izšķirtspēja *             | XGA (1024x768)                        | DVI pieslēgvietā *                | ×                           |
| Kontrasta attiecība (tipiskā) *       | 20000:1                               | AC (jauda) in                     | ✓                           |
| Projektorā formātu attiecība *        | 4:3                                   | Tīklošana                         |                             |
| Krāsu skaits                          | 1,07 miljardi krāsu                   | Viedtelevizors *                  | ×                           |
| Trapeces korekcija, vertikāli         | -40 - 40°                             | Ethernet/LAN savienojums *        | ×                           |
| Horizontālā sinhronizācija (min)      | 15 kHz                                | Wi-Fi *                           | ×                           |
| Horizontālā sinhronizācija (max)      | 100 kHz                               | Multimēdiji                       |                             |
| Vertikālā sinhronizācija (min)        | 24 kHz                                | Iebūvēti skaļruņi *               | ✓                           |
| Vertikālā sinhronizācija (max)        | 120 kHz                               | RMS nominālā jauda                | 3 W                         |
| Gaismas avots                         |                                       | Iebūvēto skaļruņu skaits          | 1                           |
| Gaismas avota tips *                  | Lampa                                 | Dizains                           |                             |
| Lampas jauda                          | 210 W                                 | Tīrģus pozicionēšana *            | Prezentācija                |
| Objektīva sistēma                     |                                       | Produkta veids *                  | Standarta fokusa projektorš |
| Tālummaiņas spēja                     | ✓                                     | Produkta krāsa *                  | Melns                       |
| Video                                 |                                       | Izvietošana                       | Griesti                     |
| Analogo signālu komutācijas sistēma * | NTSC, PAL, SECAM                      | Displejs                          |                             |
| Atbalstītās grafikas izšķirtspējas    | 1024 x 768 (XGA), 1920 x 1200 (WUXGA) | Iebūvēta displeja *               | ×                           |
| Savienojamība                         |                                       | Enerģijas pārvaldība              |                             |
