RF 50mm F1.8 STM Lens

Canon RF 50mm F1.8 STM Lens:

The RF 50mm F1.8 STM is a compact and highly versatile RF prime lens capable of high quality images. The wide aperture gives this lens excellent low-light prowess which means you'll be able to keep it on your camera all day long, even when light levels drop. With a fixed 50 mm focal length offering a neutral perspective and remarkable close focusing to capture details close at hand, you'll soon discover new creative possibilities and take your photography to a whole new level. The lens is small, light and quiet thanks to a redesign of optics for its RF mount and STM motor and is ideal for advancing your skills as a photographer.
